Title of the project (New and unique title – not the base paper title and existing papers)

Guided by
Dr.M.Sumathi
AP-III / IT/ SOC

Presented by
Name (Reg.No)
Year / Branch

Base Paper Details

- Base Paper Title :
- Journal Name :
- Year of Publication :
- Publisher Name :
- Base Paper Link :

Abstract

- Abstract write it in own sentence from 150 to 200 words.
- Abstract should includes 2 lines of short domain introduction
- Requirement of this work (problem addressed in this work)
- Your proposed solution and experimental output.

Introduction

Domain Introduction

Literature Review

Sl.No	Paper Title	Technique Used	Merits	Limitations
1	Author Name, Paper Title, Journal Name, Year of Publication			
2				
3				

Literature Review

Sl.No	Paper Title	Technique Used	Merits	Limitations
4	Author Name, Paper Title, Journal Name, Year of Publication			
5				
6				

Limitations of Existing Systems

Write the limitations of literature review papers

Problem Statement

Write the problem statement of the proposed work (what problem you are going to solve in this work).

Objective

Write the objective of the proposed work (how you are going to solve the problem in this work).

Methodology

Explain it – how you are going to solve the problem- Techniques

Hardware and Software Requirements

Hardware

Software

Flow diagram / System Architecture

Your proposed work flow diagram or system architecture

List of Modules

Module 1

Module 2

Module 3

Module 1 Title

Module 1 explanation with add algorithm and necessary equation.

Module 2 Title

Module 2 explanation with add algorithm and necessary equation.

Module 3 Title

Module 3 explanation with add algorithm and necessary equation.

Experimental Results – Preprocessing

- Add screen shot of Preprocessing
- Add 2 to 3 lines about the output.

Experimental Results –Module 1 title

- Add screen shot of module 1
- Add 2 to 3 lines about the output.

- Like this if you need to add more screen shots – add the important screen short for your explanation. (4 to 5 slides for experimental results)

References

1. Take at least 5 papers related to your base paper and added like below format.

E.g. (Author Name, Paper title, journal name, year of publication and page number)

Example:

M.Sumathi, S.Sangeetha, “Blockchain based sensitive attribute storage and access monitoring in banking system”, International journal of cloud applications and computing, Vol.10, Issue 2, 2020, 77-94.

THANK YOU!
